INDEXER'S NOTE

The index of THE MEDICAL JOURNAL OF AUSTRALIA is divided into two parts: (i) Subject Index and (ii) Author Index.

Subject Index: the subject headings used in this index are based on *Medical Subject Headings 1985,* compiled by the United States National Library of Medicine. Some additional headings have been added to accommodate Australian usage. All material is indexed under major subject headings, with *see* references from all possible alternative headings.

Author Index: Journal articles are indexed fully under the name of the first author. The name of each additional author appears with a *see* reference to the first author.
